REPORT OF THE Superintendent of Schools

Wells, Maine, February 1, 1938

To the Superintending School Committee of Wells, Maine:

I herewith submit to you my report of the Schools of Wells.

The school census of April 1, 1937 showed there were 430 boys and 401 girls, a total of 831 persons between the ages of five and twenty-one years of age in the town on that date. There were 564 enrolled in the schools this Fall as the following table shows:

There have been a few changes in the corps of teachers who began work in the Fall.

At the High School Mr. Philip Perkins was selected as submaster and coach of athletics and Mr. Monroe Bean was chosen as the teacher in the manual training department.

In the elementary schools, Miss Blanche Hutchins was transferred to the Primary room at Ogunquit, and Mr. Dichard Dustin was transferred to Div. 2 Grammar school. Vacancies at Div. 1, Div. 6, Div. 10 and Div. 16 were filled by the election of Miss Ida McKeen, Miss Ruth Palmer, Miss Hilma Smith and Miss Maxine Smith, respectively.

All but two of our new teachers have had experience of at least one year of teaching and are Normal or College trained. The teachers who remained with us are giving their customary good quality of service, and those beginning work with us have taken up their duties satisfactorily with very little break in the training of the children.

At last year's annual meeting some statements were made which I fear confused the voters and resulted in the school department receiving less money than was needed for the schools. At this time I shall try to clear up some of the wrong impressions made.

In making out requests for money to be used during the ensuing year the Committee considers:

1. The amount necessary to carry on the work of that department for the ensuing year, based upon the necessary expenditures for the past year.
2. The amount of balance or overdraft in that account.
- 3 The combination of these two gives the amount to be raised.

This plan is used each year, and reference to your past town reports will show you that the sums asked for increase or decrease as the balances decrease or increase.

Emphasis was laid upon the total balance of all school accounts, although the article under discussion was in elementary schools. We of the school department have no authority to transfer from one account to another, balances or overdrafts. The actual balance for use in the common school account ending in 1937 was \$4,836.11. The budget request was for \$12,000, which would make available \$16,836.11. If you will note the amount sought in 1937 was \$2,000 less than that asked for in 1936, indicating that we are administering our finances for the best interests of the town. Furthermore, in 1937, since there was a balance in the repair account due to the long wait for the new High School, no money was requested.

In the high school account for 1936-1937, \$7,500 was raised, but (because of the balance of \$4,836.11, only \$6,500 was requested the next year. This cut the combined common school and high school request down \$3,000.

Our repair account is much overdrawn. First, because no money was appropriated, and secondly, the expenditures necessary for the year were much greater than the committee had foreseen. When the elementary school of Div. 2 was moved to the former high school building, alterations to the building were necessary. In the fall, for the cafeteria in the new building, it was necessary to build a serving counter and one long table for the use of the students. Later, another long table was built to properly care for the pupils eating their lunches at noon.

The mugs supplied by the P. T. A. for use in the cafeteria at the high school were gratefully received and have been very useful there.

In the laboratory, a panel board and device for delivering to the tables specified voltages of direct current were installed in accordance with the plans drawn up for the new building. In the manual training room, benches of hard wood were built, facing the light, the entire length

of the room, a distance of more than sixty feet. We are very appreciative of the fine work done by Mr. Bean in constructing these work tables, and of his interest in his work shown by the fact that he spent about two weeks of his own time in their construction. In addition, as usual, we had some outside painting done and other minor repairs made throughout the town.

I am sorry to report for the first time since I came to serve you, overdrafts in a number of accounts. As I have suggested before, the balances in several accounts were to have helped us to carry on our work with smaller amounts raised. Since, by vote of the town, these balances were transferred, with the exception of the balance in the Domestic Arts account, we were not furnished enough to carry on our work. Because of the lack of funds this year, our requests for next year are much larger in order to carry on next year and care for overdrafts. I hope that the voters of the town will grant the requests of the school committee, arrived at after deliberative thought and a definite knowledge of the needs of the schools, so that further overdrafts may not be necessary.

I wish to thank the school committee, the teachers, and all friends of the school for their co-operation during the past year.

Respectfully submitted,

JOHN S. CARVER.

Gentlemen:

I have examined the foregoing accounts of John S. Carver, Superintendent of Schools, and have found the same correct with proper vouchers, and balance carried forward according to previous records.

RUTH B. WALL,

Auditor, Town of Wells.

*This large overdraft is due to the fact that no money was raised in 1937 for elementary schools or repairs, and existing balances in other accounts were transferred.

A more complete explanation is to be found in my written report.

WELLS HIGH SCHOOL REPORT—1937-1938

Supt. John S. Carver:

There were one hundred sixty-seven pupils enrolled at Wells High School during the fall term. Ninety-three were boys and seventy-four were girls. They were divided into classes as follows: Seniors, 41; Juniors, 33; Sophomores, 31; Freshmen, 62.

As we started our first complete year in the new building, we were able to introduce Manual Training for the first time and to enlarge the number of courses offered in Home Economics. The course in Manual Training has proven very popular, with over sixty boys being enrolled.

Two new members were added to the faculty. Mr. Philip Perkins replaced Mr. Preble as teacher and coach, and Mr. Monroe Bean became the teacher of manual training. Each of these men has proven a valuable asset and is ably carrying on his specific work.

Miss Ethel Weymouth, Miss Beulah Hamilton, and Miss Dorothy Somers returned to their various duties this year. Each is performing her duties with the usual amount of success.

Mr. Freeman, as janitor, has been very willing to cooperate with and assist each of the teachers to the efficient running of the school.

The lunch room under supervision of Mrs. Rousseau has been very satisfactorily conducted. Both parents and pupils should fully appreciate the advantages offered by the lunch room.

For the last half of this year we have adopted the new long period rotated schedule of classes. This is proving very popular in the schools throughout the state, and Wells High is keeping in step with the times by adopting this system. The plan has not been in operation at Wells long enough for me to give my personal reaction.

Many useful articles have been made by the manual

training groups under the direction of Mr. Bean. Among those greatest appreciated are two ping-pong tables for use of the students, and an electric score board for use at the basketball games.

I have greatly appreciated the opportunity of working in the new building with the facilities at our disposal, and have striven to improve the instruction offered to the pupils.

I sincerely thank the citizens of Wells, the superintending school committee, the superintendent of schools, the teachers, and the pupils for their cooperation, and I hope we may continue our pleasant relationship in the future.

AURA W. COLEMAN, Principal.

REPORT OF MUSIC SUPERVISOR

Superintendent John S. Carver:

Dear Sir:-

I herewith submit to you my third annual report as Supervisor of Music in the schools of Wells, Maine.

The place of music in the public schools is widely acknowledged as of deep significance. Its possibilities and obligations are more and more the subject of serious consideration.

From the entrance of the child into the first grade until his graduation from high school, my aims include the following: First, to give to the pupils the correct use of the singing voice; second, to develop in them a love for the beautiful and fine in music; third, to develop in them a discriminative taste in choosing the music that they sing, play or hear; fourth, to lead them, above all, to a conception of that universal and individual language, music, as a beautiful essential in their daily lives.

Needless to say, in the early part of a child's school life he must be guided slowly and wisely towards the fore-

going objectives. Each year, with the unfolding of new perceptions, his experience may be enriched.

Song singing—both by rote and by note—individual singing, the correction of defective singers, rhythmic development, recognition of measure, ear training, development of beauty of tone: all of these have been included in the training in the elementary schools.

The harmonica movement is becoming increasingly attractive. There are now four bands organized in Wells, three of these having been formed this year; one at Ogunquit which includes grades five, six, seven and eight, another at Moody, and the third at Division Six. Great interest and enthusiasm is shown in these harmonica bands by the boys and girls, and their progress in playing has been rapid.

The high school orchestra meets each week for rehearsal and has played for many of the school programs including the dedication of our new high school building.

Several members of the high school chorus had the privilege of singing in the combined chorus at the York County Teachers' Convention which was held in Sanford early in the fall.

Perhaps the outstanding event of the year was the presentation of the "Festival of the Months" in November, in which the children from every grade school in town had some part. The proceeds from this program amounted to approximately \$70.00. This has been divided and each school is using its share to provide musical equipment.

A variety program is now being prepared for early presentation by the high school chorus which will be assisted by the orchestra and the Kennebunkport high school chorus. The Wells groups will, in turn, assist with a similar program at Kennebunkport.

I am exceedingly grateful for the opportunity afforded me of attending the 20th Biennial Convention of the National Federation of Music Clubs held at Indianapolis last

April. This was a rare musical treat, and an experience never to be forgotten. The evidence of renewed interest in music in public school education was manifested during this great festival on Junior Day, when in one group alone 400 grade school children were brought from a neighboring state that they might sing the story of Alice in Wonderland. The Apollo Boys' Choir from Birmingham, Alabama, the massed junior orchestra, the bands, the Singing Redmen from Bacone College, and all the other organizations contributing to the program gave tangible evidence of the interest in music and the place it holds in the educational life of our United States.

In bringing my report to a close may I express my sincere thanks to the teachers who have shown such fine cooperation in all of my efforts, likewise to yourself, the school committee and parents for all the kindly help received.

Respectfully submitted,

INA N. EMERY.

MANUAL TRAINING

Superintendent John S. Carver

A new course was started in the high school this year, namely, Manual Training.

For the benefit of those people who have found it inconvenient to look over the shop and its equipment it may be well to outline briefly the equipment with which the boys are working and are going to work.

First of all is the very excellent room which is approximately sixty-five feet by twenty feet with adequate windows along one side of the room. The six benches are built of hard wood and are about ten feet in length with three vises on each, taking care of eighteen boys at one time.

At each place on the benches there are the following tools: one smooth plane, one try-square, one rule, one marking gauge, and three different sizes of chisels. Besides the individual tools there is in the shop a tool cabinet which contains a variety of hand tools which would cover nearly all of the more common jobs that anyone might be called upon to do. This cabinet, incidentally, was made by the boys of the senior class who enrolled in the course. These tools include saws, screwdrivers, bits, bit-braces, framing squares, combination squares, drills, hand-drills, files, hammers, and others. The shop is most fortunate in being able to boast two of the most modern power tools on the market a ten-inch circular saw of the tilting arbor type and a six-inch jointer-planer. The shop also boasts a wood turning lathe. All in all it is as nicely an equipped shop as one can find for miles around.

Regarding the course itself, it has been rather difficult to adhere to a definite program this year due to the necessity of building various pieces of equipment for the shop and school. We have, however, completed a number of projects which employ the fundamentals in carpentry and cabinet making. These include the proper use of the plane, the chisel, the saw, the hammer, the screwdriver, the bit and bit-brace, the hand-drill, and the whet-stone in sharpening edge tools. The course is offered for four years with the fundamentals of instruction given during the first and second years. Advanced projects in furniture making may be made during the third and fourth years. The first year covers the processes used for hand tools and the second year will cover further processes with hand tools. Also in the second year the fundamentals of furniture design will be taught.

There were enrolled in the course fifty-eight boys out of the ninety-three in school. This means that over sixty-two percent of the boys in school are served by the course.

Some of the projects which have been made for the shop and school are: the tool cabinet which was previously mentioned, a lumber rack, a special waste-basket, two regulation-sized ping pong tables, which are used at noon

times to provide recreation for students, a book rack for school's office, and a stool for the library to facilitate the handling of books on the high and low shelves.

I wish to express in my humble way my deepest appreciation for the excellent cooperation that I have found between the school committee, teachers and interested parents and friends.

Respectfully submitted,

MONROE BEAN.

HOME ECONOMICS

Superintendent—John S. Carver:

The Home Economics course in Wells High School has been enlarged this year from a two years' course to a three years' course.

The Freshman Course consists of three units—28 weeks of Clothing, 4 weeks of Child Care, and 4 weeks of First Aid and Home Nursing.

The Clothing Unit includes a study of altering and fitting paper patterns, the construction of clothing and the care of clothing. In addition, the girls become familiar with differences in fiber, weave, finish and design. Desirable designs and colors in clothing are discussed in relation to the age, size, coloring and personality of the girls.

The Child Care Unit stresses the importance of heredity and environment. The prenatal and postnatal care of the mother is considered in relation to the mother's health and the baby's health. The care of the child from birth to six years of age is considered. The baby's food, bathing, habit formation, play and rest are taken up separately with attention to the relative importance of each to the child's future health and happiness.

The First Aid and Home Nursing Unit includes a study of the cause, symptoms and treatment of some of the injuries requiring attention. Instruction is given in cases of shock, burns, drowning, poisoning, bleeding, bruises, strains, sprains, dislocations and fractures. The physical and mental condition of the patient is discussed. The care of the patient and some of the nursing methods are considered.

The Second Year Course consists of two units—18 weeks of Advanced Clothing and 18 weeks of Cooking Laboratory.

The Advanced Clothing Unit is planned to increase the student's ability to sew and her knowledge of appropriate attire. Cooking aprons, head bands and holders are made for use in the cooking classes. In addition collar and cuff sets are made. Each girl also makes a blouse and skirt or a suit.

The Cooking Unit includes not only practice in cooking various nutritious foods, but it also includes a study of the principles of cooking and the nutritive values of the cooked foods in relation to the effect on the health of the body.

The Third Year Course consists of five units—9 weeks of Social, Family and Personal Relationships, 10 weeks of Nutrition, 4 weeks of Home Management, 4 weeks of Art in Everyday Life, and 9 weeks of Handicraft.

The Family, Social, and Personal Relationship Unit is planned for the purpose of helping the student realize what she should require of other people and what she in turn must do in order to be an acceptable member of society. Character traits are studied to discover which are the most valuable ones. These are discussed in relation to the family and in relation to friends. The value of cooperation inside and outside the home is discussed. Class discussions of how to cope with home and social problems are included in this unit.

The Nutrition Unit takes up the problem of nutrition from the standpoint of its necessity for health and happi-

ness, An explanation of the foods that are necessary for health is given. The value of minerals and vitamins is considered and the effect on the body. The value of an oversupply and undersupply of calories is discussed. Balanced menus are planned and their mineral and vitamin contents are calculated.

The Home Management Unit is divided into two parts. Part I consists of a discussion of the care and management of the home in its various phases. Part II consists of a discussion of budgets, practice in making out personal budgets and keeping accounts. Practical application of this is made when each student makes out her own budget and keeps a record of her expenses for a three months period.

The unit, Art and Design in Everyday Life, is a course which gives information concerning the principles of good color and design, and their application in everyday life. A laboratory course is conducted which applies the information learned in the lecture course through the medium of drawing designs and coloring them in accordance with the art principles. This course is designed to help the student arrange and select the colors of her room furnishings, to be able to select better color and design in clothing, and to select better color combinations and designs in embroidery.

The Handicraft Unit is offered for the purpose of teaching the girls what they can do in their leisure time at home. Each girl chooses her nine weeks' work in the different handicraft activities from the following list: 4 weeks of knitting, 3 weeks Embroidery, 2 weeks Crocheting, 1 week Wood Fiber Flowers, 1 week Needlepoint, 1 week Silhouettes, 1 week Designing and Painting, 1 week Leathercraft, 3 weeks Sewing, 2 weeks Mending, 2 weeks Weave-it.

REPORT OF THE Wells Corner Hose Company

This Department has answered 48 alarms in the last year. These have been for grass, brush, woods and chimney fires. In most every case buildings were in the paths of flame. We have only one piece of equipment with which to combat these conditions, the Chevrolet front end pump which has had nine years of hard service. This was not recommended or purchased for the job that it is called upon to do, namely to be at two different places at the same time. At the time this was purchased we had a Model T chemical which did all it was supposed to do and more. The tanks have been condemned and it is of no use now for fire protection.

We need an other piece of equipment, not for the sake of just saying, we have got a new pump, but for your protection.

The Department has investigated and studied many different pieces of equipment thoroughly from a viewpoint of years of service, performance and cost. The Department recommends a 500 gallon pump mounted on a two to three ton chassis with an engine of large enough horsepower to operate a 500 gallon pump without having to run it at peak speed and over to obtain the pump capacity. This is an important fact, to have an engine that will do the job and do it easy and you begin right there to save. Remember that you are pulling a heavy load up hill all the time you are pumping water. Upon these recommendations you are saving what you have in your fire engine by not being overloaded. And you get the heavier job for only \$500.00 more than for a lighter job.

The Department has found such a job, which will give you 20 years of service, pass The Underwriters 12 Hour Test and which will give you fire protection equal to any small city at a price which The Town can afford to pay.

The Department is doing all that it can do to protect your home and property from fire. Will you as tax payers cooperate with the department for better fire protection in the Town in which you live?

If this department is called to Wells Beach or Ogunquit to help either of these departments cope with a fire, the rest of the Town from the Corporation line to Kennebunk line, Drake's Island and the back part of the Town are without any protection at all. This has happened and we lost a stand of buildings under these very conditions. Wells Beach needs what they have and they need it there under the conditions. Ogunquit is the same. This department needs one more piece here. It is your money, it is your property. Why not protect it wisely?

I wish to the citizens of Wells to extend my sincere thanks for the cooperation I have received in the year just passed, also to the Selectmen and officers of the Town.

And to the members and officers of the Department I extend by sincere appreciation for the manner in which you have performed your duties.

Respectfully yours,

GEORGE W. HILTON, Chief

REPORT OF THE Public Health Nurse

To the Selectmen, School Committee and Citizens of the Town of Wells I submit the following report of my activities as Public Health Nurse, for the year 1937.

The following 753 patients have received supervision from the nurse. Of this number 579 are school children, 24 are babies, 39 pre-school children, 14 ante-partum, 4 post-partum, 68 adults, 23 social service, and 2 tuberculosis.

The type of service rendered these patients is as follows: bedside visits were made to 322 patients, 431 instructive visits, 69 investigative, and 915 miscellaneous.

The nurse made 44 visits with 24 patients to Vision Clinic, conveyed 4 patients to Crippled Children's Clinic, 8 visits with 4 patients to Orthopedic Clinic, took 44 patients to Dental Clinic, 4 patients to other Clinics, conveyed 18 to hospital and return, and took 19 patients for X-ray examinations.

The Communicable Disease report shows that there were 126 cases of chicken pox, 8 scarlet fever, 1 typhoid, 22 whooping cough, and 51 cases of mumps.

The School Inspections show that there have been during the year, 23 vision corrections, 25 tonsil, 111 dental, 103 diphtheria Schick Tests, 127 diphtheria toxoid immunizations, and 81 Seven Point pupils.

The figures show that the Service has been a busy and a varied one. 12 schools have been covered and many needed corrections made, as well as a generalized nursing service rendered to the many people who have needed assistance.

The Wells Health Association financed several of the corrections, and this coming year we hope to do much more especially in the first four grades, thus the children may benefit from corrections made during the first years of school.

The Parent-Teacher Association sponsored a Nutrition Program for last May. The State Nutritionist, Miss Elizabeth Waters, spent three days in home visits, home demonstrations, and one open evening meeting at the High School Auditorium.

The Audiometer has been used to test hearing defects which would otherwise go undetected. This machine was loaned to us from the Maine Public Health Association with no cost except transportation express charges. The records will be rechecked in February, 1938.

Valuable assistance has been given by the Red Cross Chapter. They have helped with X-rays, tonsil operations, and have provided equipment for the use of the Service. Gift clothing has been mended and made usable, and layettes, are being made by several friends as well as a wheel chair donated by the Benevolent Society of the Second Congregational Church. This gift was made possible by the generosity of still another friend of the Service.

Appointments for a Diagnostic Chest Clinic are being made. This Clinic has had to be postponed twice but will probably be held before this report reaches you. Plans are being made, one for a mid-morning milk lunch at one of the schools for the children who are underweight or not doing good school work, to be tried out in January and February. Those children who had the Diphtheria Toxoid this year will receive the Schick Test to test their immunity to the disease. A small-pox vaccination Clinic will be held during April.

In appreciation of assistance given, I wish to thank all those who have helped to make a success of our health work—the Selectmen, the Superintendent of Schools, the School Committee, the teachers, the Parent-Teacher Association, Red Cross Committee, the Legion and Legion Aux-

iliary, the Benevolent Society of the Second Congregational Church, the Baptist Church at Ogunquit, the doctors, the members of the Wells Health Society, the Maine Public Health Association, and our citizens.

Respectfully submitted,

GRACE E. MESERVE, R. N.,
Public Health Nurse.

DEVELOPMENT ASSOCIATION FOR YORK COUNTY, ME.

This is a County-wide organization founded for the sole purpose of developing and advertising the outstanding natural advantages and attractions of York County. Its one object is to increase the amount of revenue now being received by every individual in the County. Its founders feel sure this can be done, primarily, by increasing the tourist traffic into the County and by bringing in half a million more vacationists than are coming here each year at the present time. The Association would also assist the agricultural and industrial interests of the County in ways that are not covered by the excellent organizations which represent these important activities at the present time, and which may be said to be outside of their field of work. Mainly, this would be through channels of County-wide advertising and publicity which would mean increased sales for both the farmer and the business man, small or large.

York County has reached the point where it must present a united front in its effort to hold and to increase its present business. This is why the Development Association for York County, Maine, has been founded and is being backed by many of the most public-spirited and far seeing men and women in the County.

Its present program will include extensive County advertising campaigns in the great newspapers of Eastern United States and Canada; the publication of a beautifully illustrated York County booklet in which each of its 28 towns and cities will have identical space and pictures; establish information bureaus to give out vital facts about what York County has to offer; increase the sale of old farms and community homes to Summer residents and make more tax payers and more demand for local labor; develop and improve its highways; publicize the County's agricultural and industrial advantages; promote Old Home Days, Winter Sports, and other events that will attract

large numbers of people from outside the County; mark its historical spots, and stimulate interest in making its communities and its highways more beautiful so that they will attract more people.

The Association has been so organized that every town and city has equal representation on its Governing Board. There can be no politics, no cliques, no special benefits for one section over another, within the organization. It must work for the County as a whole. It will have to be supported by low cost Investor-memberships and the more who join it the more work the Association can do.

Complete details will be furnished all who write for information. Address, Development Association for York County, Maine, Biddeford, Me.

Warrant for Annual Town Meeting

MARCH 14, 1938

To FRANK D. HATCH, a Constable in the town of Wells, County of York and State of Maine:

York, ss.
Greetings:

In the name of the State of Maine you are hereby required to notify and warn the inhabitants of the town of Wells, qualified by law to vote in town affairs, to meet in the Town Hall in the Town of Wells on Monday, the 14th day of March A. D. 1938, at eight o'clock in the forenoon, then and there to act on the following articles:

First—To choose a Moderator to preside at said meeting.

Second—To see if the Town will vote to have one or more Road Commissioners.

Third—To choose a Town Clerk, three Selectmen, Assessors and Overseers of the Poor, a Town Treasurer, Collector of Taxes, one member of the Superintending School Committee for three years, Auditor of Accounts and all other necessary Town officers for the year ensuing.

Fourth—To see what sum of money the Town will vote to raise by assessment, grant and appropriate for the support of the poor and other incidental Town charges, for the year ensuing.

Fifth—To see what sum of money the Town will vote to raise by assessment, grant and appropriate, for the support of Common Schools for the year ensuing.

Sixth—To see what sum of money the Town will vote to raise by assessment, grant and appropriate, for supplies for schools for the year ensuing.

Seventh—To see what sum of money the Town will vote to raise by assessment, grant and appropriate, for support of a free High School for the year ensuing.

Eighth—To see what sum of money the Town will vote to raise by assessment, grant and appropriate, for Text Books for the schools for the year ensuing.

Ninth—To see what sum of money the Town will vote to raise by assessment, grant and appropriate, for superintendence of its schools for the year ensuing.

Tenth—To see what sum of money the Town will vote to raise by assessment, grant and appropriate, for repairs of school houses for the year ensuing.

Eleventh—To see what sum of money the Town will vote to raise by assessment, grant and appropriate, for payment of the High School graduation for the year ensuing.

Twelfth—To see what sum of money the Town will vote to raise by assessment, grant and appropriate, for transportation for its High School scholars.

Thirteenth—To see what sum of money the Town will raise by assessment, grant and appropriate, for water rents for its schools for the year ensuing.

Fourteenth—To see what sum of money the Town will vote to raise by assessment, grant and appropriate, to pay for insurance on school buildings.

Fifteenth—To see what sum of money the Town will vote to raise by assessment, grant and appropriate, to maintain the Domestic Arts Course for the year ensuing.

Sixteenth—To see what sum of money the Town will vote to raise by assessment, grant and appropriate, to maintain the Manual Arts Course in the High School for the year ensuing.

Seventeenth—To see if the Town will vote to raise by assessment, grant and appropriate, the sum of \$1,440.00 to be spent under the direction of the School Committee in purchasing 600 seats for the assembly room at the High School.

Eighteenth—To see if the Town will vote to raise, grant and appropriate, money for the purchase of land extending in a northwesterly direction back of the present athletic field a distance of from 80 to 100 feet, in order that the athletic field may be enlarged sufficiently for use.

Nineteenth—To see if the Town will vote to raise by assessment, grant and appropriate, the sum of six thousand, one hundred forty-four dollars and eleven cents (\$6,144.11) to take care of all overdrafts in the school accounts.

Twentieth—To see if the Town of Wells will vote to raise by assessment, grant and appropriate, the sum of two thousand dollars (\$2,000.00) for the support of the Public Health Nursing Service. On petition of Elsie L. Libby and eleven others.

Twenty-first—To see what sum of money the Town will vote to raise by assessment, grant and appropriate, for maintenance of Highways, Roads and Bridges for the year ensuing.

Twenty-second—To see what sum of money the Town will vote to raise by assessment, grant and appropriate, for snow removal for the year ensuing.

Twenty-third—To see what sum the Town will appropriate for State Aid Road construction (in addition to the amounts regularly raised for the care of ways, highways and bridges) under the provisions of Section 19, Chapter 28, Revised Statutes of 1930, or under the provisions of Section 3, Chapter 173, Public Laws of 1935.

Twenty-fourth—To see what sum of money the Town will vote to raise by assessment, grant and appropriate, for its share of the joint expense of the State Highways, for the year ensuing.

Twenty-fifth—To see if the Town will vote to raise by assessment, grant and appropriate, the sum

of one thousand, two hundred and fifty dollars (\$1,250) for the maintenance of improved sections of Third Class Roads, or to be used in conjunction with the State apportionment for the construction of Third Class Roads.

Twenty-sixth—To see what sum, if any, the Town would recommend to take from the joint State Aid account for the purpose of applying bituminous surface treatment to State Aid Roads in excess of the requirements of Section 2, Chapter 132, Public Laws, 1935.

Twenty-seventh—To see what sum of money the Town will vote to raise by assessment, grant and appropriate, for cutting and burning bushes on its State and State Aid Roads.

Twenty-eighth—To see what sum of money the Town will vote to raise by assessment, grant and appropriate, for an application of tar or asphalt on its roads for the year ensuing.

Twenty-ninth—To see what sum of money the Town will vote to raise for the Town's Indebtedness and interest thereon and how the same shall be raised.

Thirtieth—To see what sum of money the Town will vote to raise to pay the Ogunquit Village Corporation for the amount due it from the Town of Wells.

Thirty-first—To see if the Town will vote to raise by assessment, grant and appropriate, the sum of two hundred dollars (\$200.00) for the observance of Memorial Day.

Thirty-second—To see if the Town will vote to raise by assessment, grant and appropriate, the sum of twenty-five dollars (\$25.00) for prizes for the Boys' and Girls' Agriculture and Home Economics Club of the Town of Wells.

Hilton for transporting his children to and from Ogunquit School, Division 5, for the school year 1938. On petition, Wilbur F. Rollins and forty others.

Thirty-ninth—To see if the Town will vote to instruct the Selectmen and Road Commissioners to divide the Town road work more equitably among laborers and among truck owners, and make such distribution of the work that a larger number of men and a larger number of trucks will get some of the work, rather than give it all to a few men and a few trucks. On petition of B. F. Bridges and twenty others.

Fortieth—To see if the Town will vote to raise, grant and appropriate the sum of two hundred dollars (\$200.00) or any sum, to repair the Fishermen's Slip at the Cove. On petition of Bert S. Miller and fifteen others.

Forty-first—To see if the Town will vote to buy a combination automobile fire truck and pumper for the Wells Corner Hose Company, to be used for the fire service in the Town, and grant, raise and appropriate a sufficient sum of money therefore. On petition of George P. Hilton and ninety-two others.

Forty-second—To see if the Town will vote to install four lights on the High School grounds, two upon the rear corners of the building, lighting the driveway and walk on each side and the parking space in the

rear: and two on iron standards along the side walk to light up the drive way and front grounds: all to be located by the Selectmen and to appropriate a sum of money therefor. On petition of Dr. F. J. Chase and nine others.

Forty-third—To see what sum of money the Town will raise by assessment, grant and appropriate to pay its different Town officers for the year ensuing.

Forty-fourth—To see if the Town will vote, appropriate and raise the sum of five hundred dollars (\$500) to be spent as a special appropriation to continue repairing the road leading from Everett Littlefield to Dixon Bridge. On petition of Lester C. Stevens and twelve others.

Forty-sixth—To see if the Town will vote to raise by assessment, grant and appropriate, the sum of one hundred seventy-six dollars (\$176.00) to pay for street lighting on the North Berwick and Wells State Road, Route No. 9, Maryland Ridge, as per contract with the Berwick and Salmon Falls Electric Company, approved by the Selectmen March 20, 1936.

Forty-seventh—To see if the Town will authorize the Selectmen and the Town Treasurer to hire money in anticipation of taxes, at a rate not to exceed five per centum per annum and to specify the amount to be so hired.

Forty-eighth—To see if the Town will vote to raise by assessment, grant and appropriate, the sum of five hundred dollars (\$500.00) for rebuilding the Mildram Road, so-called, from the property of Ernest Goodwin through to the Kennebunk Road, on petition of Herman L. Huff and others.

Forty-ninth—To see if the Town will vote to raise by assessment, grant and appropriate a sum of money for a hydrant between the cottages owned by Daniel Smith and cottages owned by Edward White on Atlantic Avenue, located at Wells Beach, on petition of Alfred A. Joyal and twenty-one others.

Fiftieth—To see if the Town will vote to raise by assessment, grant and appropriate the sum of one thousand dollars (\$1,000.00) for continuation of the rebuilding of the Burnt Mill Road, from the Railroad, as far as possible. On petition of Henry L. Hanson and eighteen others.

Fifty-first—To see if the Town will vote to allow a discount of one per centum on taxes paid before September first, 1938, and charge interest of one half of one per centum per month on taxes unpaid October 1st, 1938.

Fifty-second—To see if the Town will vote to raise, grant and appropriate the sum of five hundred dollars (\$500.00) for Special Resolve Road No. 4 of Wells Branch near the residence of Chick's Crossing.

Fifty-third—To see if the Town will vote to raise by assessment, grant and appropriate, the sum of one hundred and fifty dollars (\$150.00) for care of the

Soldiers' Monument and Tomb in the Ocean View Cemetery, on petition of Fred W. Bayley and nine others.

Fifty-fourth—To see if the Town will vote to raise by assessment, grant and appropriate the sum of one hundred dollars (\$100.00) to take care of the World War Memorial Monument and the G. A. R. Monument and the grounds around them.

Fifty-fifth—To see if the Town will vote to raise, grant and appropriate the sum of one hundred seventeen dollars (\$117.00) to reimburse Vander W. Forbes for money expended in hiring a Police Officer at Wells Beach Saturdays and Sundays during the summer season of 1937.

Fifty-sixth—To see if the Town will vote to raise by assessment, grant and appropriate the sum of two hundred dollars (\$200.00) to repair the road back of the First Congregational Church. On petition of Wilbur H. Barker and fourteen others.

Fifty-seventh—To see if the Town will vote to raise by assessment, grant and appropriate the sum of five hundred dollars (\$500.00) for repairing the road leading from Route No. 9, known as the North Berwick Road to the Roger Bragdon road by the residence of Harry Dustan and Leon Goodwin. On petition of Leon W. Goodwin and thirteen others.

Fifty-eighth—To see if the Town will vote to raise by assessment, grant and appropriate the sum of two hundred dollars (\$200.00) to repair the mail route from the residence of George S. Shaw past the residence of

Fred Sherburne to the Ogunquit Village Corporation line. On petition of C. W. Wilson and eight others.

Fifty-ninth—To see if the Town will vote to raise, grant and appropriate the sum of three hundred dollars (\$300.00) to hire a police officer for duty at Wells Beach from May 30th, 1938, to and including Labor Day of the same year. On petition of Donald A. Moody and fifteen others.

Sixtieth—To see if the Town will vote to raise, grant and appropriate the sum of one hundred dollars (\$100.00) to hire a man and truck to clean up the road at Wells Beach, at least once a week during the summer months, from Folsom Avenue to the Atlantic House and also to clean up the Beach from the residence of William Bennett to the Atlantic House. Or such other part of the Beach as may be needed, at the discretion of the Selectmen. On petition of Wesley K. Moody and fifteen others.

Sixty-first—To see if the Town will vote to raise by assessment, grant and appropriate a sum of money to cover the cost of insulation for making the doors of the vault in the Town Officer's room fireproof.

Sixty-second—To see if the Town will vote to raise by assessment, grant and appropriate a sum of money for support of the Veterans.

Sixty-third—To see if the Town will vote to remove the hydrant between the Howard Johnson and Dyers Filling Station to a new location. To be located by the chief of the Wells Corner Hose Company and Wells Beach Hose Company.

Sixty-fourth—To see if the Town will vote to authorize its Selectmen to sell any and all property acquired by Tax sales and to authorize its Treasurer to sign all deeds of conveyance.

Sixty-fifth—To see if the Town will raise, grant and appropriate the sum of two hundred dollars (\$200.00) or any other sum of money, to be expended for a nine foot road to be located at Wells Beach, so-called, and more specifically described as follows, to wit: Beginning at a point on the westerly side of Atlantic Avenue, so-called, near the residence of Mr. Boucher and extending to a private right of way near the residence of Genevieve Clark, a distance of about one hundred (100.00) feet.

Sixty-sixth—To see if the Town will authorize the Selectmen to contract for a Town Physician and raise by assessment, grant and appropriate the sum of eight hundred dollars (\$800.00) therefor. On petition of Elsie L. Libby and ten others.

Lastly—To transact any other business that may legally come before said meeting.

The Selectmen hereby give notice that they will be in session for the purpose of revising and correcting the list of voters, at their office in the Town Hall Building in Wells, on March 10th, 11th, and 12th, 1938, from 10 o'clock in the forenoon until 4 o'clock in the afternoon.

HEREOF FAIL NOT to make due service of this Warrant and a return of your doings thereon, at the time and place of this meeting.

Given under our hands this first day of March, 1938.

N. B. The Polls will open for the election of Town Officers at 8 o'clock A. M. Monday, March 14th, 1938, and will close at 1:30 P. M. Monday, March 14th 1938.

Vote of the Town March 12, 1935.

Auditor's Report

February 23, 1939
10 Congress Sq.
Portland, Maine

To the Board of Selectmen
Wells, Maine

Gentlemen:

This is to certify that we have audited the accounts of the Selectmen, Treasurer and Collector of Taxes of the Town of Wells for the year ending February 7, 1939, and that the financial standing of the Town as shown by the Comparative Balance Sheet is correct as of that date to the best of our knowledge and belief.

The Collector of Taxes has accounted for all taxes collected and all money collected was deposited with the Treasurer.

The Treasurer has accounted for all receipts and disbursements and the balance shown as due the Town was on deposit in banks. The Cash on hand of \$7112.99 was deposited after the books were closed.

The abatements of \$3183.13 include abatements of 1937 and 1938, due to the fact that the Collector of Taxes did not close his books until February 21. The overdraft in the Snow Removal account was carried forward due to the fact that no appropriation was made and no authority given the Selectmen to borrow money for this account.

Respectfully submitted,

(Signed) EDWARD T. SULLIVAN

Public Accountant and Auditor.

REPORT OF THE Superintendent of Schools

Wells, Maine, February 1, 1939

To the Superintending School Committee of Wells, Maine:

I herewith submit to you my report of the Schools of Wells.

The School Census of April 1, 1938, showed there were 449 boys and 393 girls, a total of 842 persons between the ages of five and twenty-one years of age in the town on that date. There were 548 enrolled in the schools this fall as the following table shows:

There have been some changes in the teaching force which began the school year 1938-1939.

Miss Evelyn Whiteley was elected to fill the vacancy created by the resignation of Miss Somers.

Miss Ruth Palmer was transferred from Division 6 to Division 4, and Miss Mabel Harmon was transferred to Division 16. To fill the positions left by these transfers, Miss Evelyn Lord was elected for Division 6, and Miss Phyllis Barstow was selected for the Division 9 school. Mr. Dustin resigned as teacher at Division 2 Grammar to accept a better position out of the state and Mr. Kendall Adams was chosen as his successor. Mrs. Emery resigned as supervisor of music during the summer and Miss Margaret Ellis was elected to succeed her. All our new teachers have begun and carried on their work with enthusiasm, and our teachers from other years are giving their usual grade of service.

Our repair account is spent not only for actual repairs to buildings and grounds, but also for articles which last three or more years. A typewriter is a repair, while a typewriter ribbon is a supply.

In addition to the usual repairs, the following changes were made.

Slate Blackboards were installed at Division 3.

At Division 4 a steel fence replaced the old broken down wires which were unsightly and did not keep the children on the grounds.

About 500 feet of fence was also erected at the High School, and a moving picture machine was purchased for

the use of that school. In the Domestic Arts room a new cutting table and a display case were added to the equipment.

Some of the desk tops at Division 5 which had opened in the grain to an extent that it impaired the writing surfaces, were filled with liquid filler and refinished.

The interiors of the schools at Divisions 10, 14 and 16 were cleaned and renovated.

I am glad to report balances in nearly all accounts, showing the careful disbursing of funds by the school committee.

May I express my appreciation of the work of the school committee and the teachers, as well as for the assistance rendered by many friends of the school.

Respectfully submitted,

JOHN S. CARVER.

REPORT OF THE MUSIC SUPERVISOR

Dear Mr. Carver:

I am submitting a report of my work as music supervisor in the schools of Wells for the present school year.

My aim is to help each child to realize that music can and should be a necessary part of his daily life.

Each child in the grades is being taught the fundamentals of music reading. Rote songs, special songs and folk dances are included in the schedule. Work with harmonica and rhythm bands have also been carried on wherever circumstances permitted. Music appreciation has been included in the course for the upper grades.

At the high school we have two chorus classes, and a period for orchestra. At present the orchestra is small but we hope we may have more members later on. Recently we have organized a girls' glee club which meets once a week and the response has been very enthusiastic.

The students have participated in programs at the Parent-Teachers Association meetings several times and at Christmas time special music was prepared for programs in each school.

I wish to take this opportunity to thank you, Mr. Carver, the members of the school board, the teachers, and all the townspeople with whom I have come in contact, for their kind help and cooperation.

Respectfully submitted,

(Signed) ELAINE ELLIS,

Music Supervisor

REPORT OF THE PRINCIPAL, WELLS HIGH SCHOOL

Supt. John S. Carver:

The school year opened with an enrollment of one hundred and sixty-one pupils of which ninety were boys and seventy-one were girls. They were divided into classes as follows: Post Graduates, 1; Seniors, 32; Juniors, 28; Sophomores, 40; Freshmen, 61.

The Classical, Scientific, Manual Arts, Home Economics, and General courses are offered this year. An extra year of Manual Arts and Home Economics has been added to last year's curriculum.

Only one change in the high school faculty was made this year. Miss Evelyn Whiteley has replaced Miss Dorothy Somers as teacher of Home Economics. Miss Whiteley is coach of girls' basketball in addition to her regular duties.

Wells High School has received a renewal of its Grade "A" certificate, and is among the schools on the New England College entrance list. Thus any student who receives certificate rank may be admitted to college without entrance examinations.

A new sound motion picture machine has been purchased to replace the silent machine used in the past. In keeping with the modern trend in education, a visual education program may be carried out.

This has been the most successful year in athletics that the school has enjoyed for some time. Last spring the track won all its dual meets and finished second in the York County Meet. This fall the newly organized cross-country team won eight dual meets in addition to the county meet; and the six-man football team won the county championship. Trophies were won in all three of these activities. The basketball is enjoying a very successful season with victories over Biddeford High and Thornton Academy in addition to finishing near the top of the league. Much credit is due Mr. Bean for his excellent work with the team.

All members of the faculty, Mr. Freeman, Mrs. Rousseau, and the bus drivers have worked wholeheartedly to make this year a success, and their cooperation is greatly appreciated.

I wish to thank the citizens of Wells, the superintending school committee, the superintendent of schools, the teachers, and pupils for their cooperation in making 1938-39 a highly successful year; and I hope the same harmony may continue to exist in the future.

Respectfully yours,

AURA W. COLEMAN, Principal.

REPORT ON MANUAL TRAINING

Superintendent John S. Carver:

The Manual Training Course started on its second year with a total of 61 boys out of the 90 boys in school enrolled, meaning 67 percent of the boys in the school being served by the course. Of this number 27 were Freshmen. Out of the upper class boys who were enrolled last year only one boy did not elect Manual Training this year. Out of all the boys who were in school last year but did not take the course there are a total of five boys who elected to come into the course this year.

As for the material covered in the second year course, there is being offered an elementary knowledge of the construction of some of the more simple pieces of home furniture such as radio stands, tables, book-racks, wall racks, lamps and other similar projects. Of course in the process of constructing these various projects, the fundamentals of design are taken up. The different woods from which the projects are being built are some of the best cabinet woods known, namely, maple, mahogany, and walnut.

The upper class boys have had thorough instructions in the proper use and care of the power tools and they

are at liberty to use them whenever the instructor is in the room.

We were very fortunate in the fall to have added to our power equipment two very useful tools, a band saw and a drill press. The latter with a number of attachments which include a hollow chisel mortising device, a router attachment, and a shaper attachment. The latter is used to put fancy edges on, for example, table tops.

We have at present and I sincerely hope that we enjoy in the future the record of not having an accident with the power tools and no serious injury with the hand tools.

From the number and quality of projects which have been completed and are about to be completed I feel that we have had as successful a year as last and I wish to express my sincere thanks to those responsible for the opportunities which they are making possible for the boys of this town.

Respectfully submitted,

MONROE BEAN.

REPORT ON HOME ECONOMICS

To John S. Carver, Superintendent of Schools:

I submit the following report of the Home Economics Department in Wells High School.

This year's Home Economics work has been divided among three classes. One period has been devoted to the Freshmen class of eighteen students and consisted of Food Theory and Food Preparation, Home Nursing, both theory and actual practice, and Clothing Principles and Construction. The course of study has been somewhat changed as this year was introduced a more concise study of Home Nursing. The girls received enough practical work in this, so that they could very successfully take care of sick members in their home under a doctor's supervision. We were fortunate in having bought for this course an iron single bed, cotton mattress, Pepperell sheets, and a Pepperell

blanket and pillowcase. The remainder of the equipment needed was brought from home.

The Sophomore class consisting of eight students spent the first part of the year canning and preparing food a little more complicated than in the Freshman year. A course in Child Care and Development was offered next, and the last part of the year is being spent in more advanced Clothing Principles, Textiles, and Clothing Construction. Four of the girls in this class helped put on a supper for the Schoolmasters of this County and from the profit they bought pinking scissors to be used in connection with their clothing work.

The last Home Economics period is devoted to a combination class of Juniors and Seniors. There are ten members in all. A course in Nutrition was offered the first nine weeks. In this course the girls made out diets for different types of diet diseases, and worked on well-balanced meals for families on all income levels. The course was made as practical as possible in order to meet the needs of the High School girl.

A short course in First Aid including all types of bandaging and emergency treatments was given next.

After the completion of the above study the next few weeks were devoted to a course in Family Relationships. This course deals with family life, the relation of family to community, and relation of individual members within the home to each other. It fits the girls for better family living now and in the future. Such questions as various etiquette and courtesy problems appealed to this group. The last half of the year is being spent in Home Decoration. This deals with planning and furnishing of homes, and making of such articles that can add to pleasure of members in the home; such as knitting problems, embroidery work, silhouettes, needlecraft and others.

Last summer various changes were made in the department which made it more practical and better fitted to meet the need of larger classes.

Around fifty new books have been bought this year which have also been a valuable aid to my classes both for reference and as text book material.

I do feel that Home Economics is of vital importance to every High School girl and more time should be devoted to this course. The girls are interested in this type of work; that was shown when the greater number of Freshmen girls signed up for it last fall. By allowing more time for it, I think the number in the classes will increase, and it will become one of the most popular courses in the curriculum.

In closing I wish to thank Superintendent Carver and members of the School Board who have cooperated with me so well in trying to advance the study of Home Economics in Wells High School.

Respectfully submitted,

EVELYN WHITELEY,

Home Economics Teacher.

REPORT OF THE Public Health Nurse

To the Selectmen and School Committee of the Town of Wells:

The following report covers the activities of the Public Health Nurse from January 1, 1938 to January 1, 1939.

A total of 216 patients, other than those given as a part of the school health service, have had service.

Infants under 1 year	26
Pre-school children	46
School children	54
Prenatal patients	11
Crippled children	11
Post-partum patients	10
Tuberculosis	1
Adults	69
Family welfare	24

The type of service rendered has been as follows:

Bedside visits to give nursing care	345
Instructive visits to patients	339
Family welfare visits	174
Visits to crippled children	37

Total number of visits	895
------------------------	-----

The school children have had their annual inspection, and although figures show nearly the same number with defects as last year, this is because so many of the pupils entering school this fall are new and have defects.

OGUNQUIT SCHOOLS

Defective vision	5	Corrections	3
Defective tonsils	23	Corrections	2
Underweight	15	Dental corrections	47

GRADE SCHOOLS

Defective vision	22	Corrections	17
Defective tonsils	82	Corrections	10
Dental corrections			71

The interest that children have in securing corrections of defects is shown by the fact that 107 pupils won the Seven Point award.

Dental clinics were held during February, March and April at which time forty-six patients, including 1 adult and 1 preschool child were treated. Dental clinic facilities with transportation have been provided for those who otherwise would receive no dental care; this we believe will show results in later years. Dental work was paid for to the amount of \$79.00.

COMMUNICABLE DISEASE CONTROL

Number of cases reported:

Measles—School children	76	Preschool	35
Scarlet Fever—School children	1	Preschool	1
Adults	2		
Mumps—School children	3	Adults	1
Pediculosis—School children	8		

IMMUNIZATIONS

Small Pox vaccinations—School children			129
Preschool	25	Adults	4
Diphtheria toxoid—School children			
Preschool	38	Adults	
Schick tested—School children			110
Preschool	11	Adults	2

TUBERCULOSIS PREVENTION

Tuberculin tests	14	Chest X-rays	22
------------------	----	--------------	----

The usual school routine inspections have been carried out, and notices of defects sent to the parents, to bring to their attention conditions which appear to be other than normal. It is hoped that the parent will discuss with the family physician the necessity of making needed corrections.

The nutrition and general condition of the school children has improved. The milk lunch provided last spring helped those children who were chosen to assist in this experiment, and this luncheon in mid-morning will again be given to underweight children, in a part of the schools.

Hearing tests with the Audiometer, which was loaned to us by the Maine Public Health Association, helped to bring to our attention defects which were only suspected before. Many times the child was found to have hearing loss when previously he had seemed unattentive or indifferent. If corrected this should mean much to the children in the future.

Moving pictures were shown at the Nursing Committee meeting and in school on health subjects. These films were furnished free except for transportation charges, and were shown by one of the high school pupils.

Vaccination clinics have been successful as is shown by the number availing themselves of immunization against Small Pox. Fortunately Maine has been free from this disease for several years, but if this is to continue vaccination is necessary.

Toxoid immunization against Diphtheria has also been available for any child over eight months through the co-operation of the American Legion with the Wells Health Association. Many conferences have been held to explain this protective measure.

The Wells Baby Conferences are scheduled for the Nurses office from 2 to 4 P. M. the second Thursday of each month at the Grammar School building at Wells Corner. Mothers with babies or preschool children are urged to bring their children to conferences for weighing, diet and formula changes. The supervision of this group could be more satisfactory and would eliminate time spent in travel from home to home as well as make available opportunity for periodical check up, if mothers would avail themselves of these clinics.

Respectfully submitted,

(Miss) GRACE MESERVE, R. N.,

Forty-second—To see if the Town will authorize the Selectmen and the Town Treasurer to hire money in anticipation of taxes, at a rate of interest not to exceed five per centum per annum and to specify the amount to be so hired.

Forty-third—To see if the Town will vote to allow a discount of one per centum on taxes paid on or before September First, 1939, and charge interest of one half of one per centum per month on taxes unpaid October 1st, 1939.

Forty-fourth—To see if the Town will vote to raise, grant and appropriate the sum of one hundred and fifty dollars (\$150.00) for the care of the Soldiers Monument and Tomb in Ocean View Cemetery.

Forty-fifth—To see if the Town will vote to raise, grant and appropriate the sum of one hundred dollars (\$100.00) to care for the World War Memorial Monument and the G. A. R. MONUMENT and the grounds around them.

Forty-sixth—To see if the Town will vote to raise grant and appropriate the sum of one hundred and fifty dollars (\$150.00) or any other sum to hire a police officer for duty at Wells Beach from May 30th, 1939, to and including Labor Day of the same year.

Forty-seventh—To see if the Town will vote to raise, grant and appropriate the sum of One Hundred Dollars or any other sum to hire a man to clean up the road at Wells Beach, at least once a week during the summer months, from Folsom Avenue to the Atlantic House and also to clean up the beach from the residence of William Bennett to the Atlantic House or any other part of the beach as may be needed, at the discretion of the Selectmen.

Forty-eighth—To see if the Town will vote to authorize its Selectmen to sell any and all property acquired by Tax Sales or Tax Liens and to authorize its Treasurer to sign and execute all deeds of conveyance on behalf of the Town.

Forty-ninth—To see what sum of money the Town will raise, grant and appropriate for support of its War Veterans.

Fiftieth—To see if the Town will vote to refinance its notes of February 15, 1939 issued for the sum of Four Thousand Dollars (\$4,000.00) to pay for the Fire Truck and Pumper as voted under Article Forty-first of the Warrant for the Annual Town Meeting of March 14, 1938 and to specify the maturity dates and the total amount to be borrowed.

Fifty-first—To see if the Town will instruct its Selectmen and other proper officers to sell the lot of land, described below, to George S. Hobbs for an advantageous sum and execute and give a deed for the same. Said lot is thus described:

A certain lot of land, situated in Wells, lying on the Southwesterly side of the "Upper Burnt Mill Road", so called, and bounded and described thus: Beginning at the Northeasterly corner of this lot, at the junction of said "Upper Burnt Mill Road, so called, with Route No. 9A; thence running ten rods (10) Southwesterly by said Route No. 9A to a point at other land of said Town; thence running Northwesterly by said other land of said Town to the "Merriland River", at a point ten rods Southwesterly from the Southwesterly corner of the "Mary Dimon Lot" so called, owned by said George S. Hobbs; thence running Northeasterly by said "Merriland River" ten rods to the above mentioned "Mary Dimon" lot; thence running Southeasterly by said "Mary Dimon" lot and the "Upper Burnt Mill Road," so called, to the place of beginning, containing two acres, more or less. On petition of Walter E. Hatch and nine others.

Fifty-second—To see if the Town will vote to rescind its action taken at a previous meeting whereby it voted to hold its Annual Town Meetings the Second Monday in March of each year.

Fifty-third—To see if the Town will vote to hold its Annual Town Meetings hereafter, beginning in the year 1940, on the Third Monday in March of each year.

Fifty-fourth—To see if the Town will vote to authorize its Selectmen to sell School House Division No. 8 at public auction to the highest bidder and to authorize said Selectmen to execute all necessary papers to pass title thereto.

Fifty-fifth—To see if the Town will vote to grant the unimproved maintenance money to be used on Mil-dram road, from the property of Ernest Goodwin through to No. 9-A road leading to Kennebunk. On petition of Herman L. Huff and ten others.

Fifty-sixth—To see if the Town will vote to raise by assessment, grant and appropriate the sum of five hundred dollars (\$500.00) to rebuild the road leading from Route No. 9, known as the North Berwick Road to the Roger Bragdon road by the residence of Harry Dustin and Leon Goodwin and to begin at either end. On petition of Burton Dodge and twenty others.

Fifty-seventh—To see what action the Town will take relative to claims filed with the Selectmen for property damage alleged to be due said claimants by reason of a forest fire which started at the Town Dump on or about the twenty-seventh day of April, A. D. 1938.

Fifty-eighth—To see if the Town of Wells will vote to raise the sum of \$750.00 as its proportionate share, in conjunction with the State, to continue the Special Resolve road in Wells Branch by the residence of Clarence E. Goff and to state how the same shall be raised. On petition of Clarence Goff and seventeen others.

Auditor's Report

February 16, 1940

To the Inhabitants of Wells, Maine:

This is to certify that we have audited the accounts of the Selectmen, Treasurer and Collector of Taxes of the Town of Wells for the year ending February 7, 1940, and that the financial standing of the town as shown by the comparative balance sheet was correct as of that date to the best of our knowledge and belief.

The Collector of Taxes has accounted for all taxes collected and all money collected was deposited with the treasurer.

The Treasurer has accounted for all receipts and disbursements and the balance shown as due the town amounting to \$4,516.73 was represented by cash in banks amounting to \$4,349.42 and \$167.31 cash on hand.

Respectfully submitted,

E. T. SULLIVAN,

Public Accountant and Auditor.

REPORT OF THE Superintendent of Schools

Wells, Maine, February 1, 1940

To the Superintending School Committee of Wells, Maine:

I herewith submit to you my report of the Schools of Wells:

The School Census of April 1, 1939, showed there were 459 boys and 409 girls, a total of 868 persons between the ages of five and twenty-one years in the town on that date. There were 552 enrolled in the schools at the opening of the fall term as the following table shows:

We have had more changes in teachers this year than for some time. At the High School, Miss Elaine Dasakis was selected as the instructor to take charge of the newly established commercial course, and Mr. Roland Littlefield was elected to fill the vacancy caused by the resignation of Mr. Perkins.

Miss Otis, Miss Palmer and Miss Smith resigned to accept positions in other towns. Mr. Arden Tarbox was placed in charge of the grammar room at Ogunquit; Miss Dorothy Bragdon accepted the school at Division 4; and Miss Esther West began her teaching at Division 10. The teachers who remained are faithfully carrying on the work, while the teachers new to us have after a short adaptation period justified our selection of them.

The usual yearly repairs were made. Also, the building at Division 1 was painted inside and out and the room at Divisions 6 and 7 were thoroughly renovated. In order that the commercial teacher might supervise the typewriting practice, a partition with windows was built in the large room dividing it into two rooms, one still for recitations, the other a typewriting room.

The loss of the old high school building makes necessary the construction of a new building for elementary use. Since we are compelled to incur this extra expense, I think the citizens have an unusual opportunity to improve the school system by closing at least the three rural, one-room schools along the Atlantic Highway and, by transporting the pupils to a central school, provide them with a much better education and training than can be given in the one-

room school. The teaching which can be offered our children in a room with not more than two grades is attested by the successful performance of the pupils from the Ogunquit School who attend high school. It is not the fault of the teachers of these schools which maintain from six to eight grades if the pupils do not do well in high school. Neither is it the fault of the pupils from those rural schools. Rather, a low grade of work in high school is due to the inability of the teacher to do justice to so many grades in the formative periods of the child's school life and the lack of opportunity offered to the child for him to acquire a proper foundation for his high school course. A splendid chance is now offered for long range planning toward the type of school that is most efficient and helpful to the children.

Several of the teachers of elementary grades have enjoyed a series of lectures and demonstrations in the teaching of reading given by Miss Florence P. Tuttle. Miss Tuttle is a lecturer, demonstrator and author of national reputation. The fact that so many of the teachers have taken this course shows their desire for professional improvement.

Again I wish to thank the teachers for their co-operation, the members of the school committee for their assistance, and other friends of education who have given sincere help.

Respectfully submitted, ,

JOHN S. CARVER.

**REPORT OF THE
PRINCIPAL OF WELLS HIGH SCHOOL**

Superintendent John S. Carver:

One hundred and sixty-one pupils, seventy-seven boys and eighty-four girls, were enrolled in Wells High School during the first term. Their class standing is as follows: Post Graduates, 4; Seniors, 31; Juniors, 30; Sophomores, 54; Freshman, 46.

The addition of a Commercial Course gave a much greater variety of subjects from which to choose. The following courses are now offered: College Classical, College Scientific, Manual Arts, Domestic Arts, Commercial, and General. A consultation was held with each Freshman in an effort to determine the course best suited to his individual needs.

Mr. Roland Littlefield, a graduate of Yale University, was added to the faculty this year as teacher of English and coach of football. He has proven himself to be very capable and to possess an excellent background in the field of English.

Miss Elaine Dasakis, a graduate of Bliss Business College, was added to the staff as teacher of Commercial subjects. Her work has been highly commendable and her large classes have been conducted very efficiently. A total of 135 pupils are enrolled in the classes in Bookkeeping, Typing, Shorthand, and Junior Business Training.

The school is being run on the rotated schedule, with five one hour periods in the daily schedule. One period a week is devoted to club work, and one to general activities.

Several new innovations are being tried this year with the hope that they may become a permanent part of the school program. Clubs have been introduced for the first time and meetings are held the last period each Friday. The pupils were given an opportunity to choose the club that best suited each one, and the following have been organ-

ized: Glee Club, Boy's Cooking Club, Girl's Shop Club, Hobbies Club, Commercial Club, and Science Club. Hot lunches are served each noon in the school cafeteria and are becoming very popular. Many class-room moving pictures are being used to supplement the text-book. The Senior Class is publishing a year-book which will be the first to be produced by the school.

Several extra-curricula activities of importance were the Freshman Reception, which was featured by dancing, games, and refreshments; the Annual Senior Play which was presented the first of February, and the outstanding success of the six-man football team. This team was presented a Horlick Trophy as one of the thirty leading teams in the country; and Payson Harmon was named in the All-American Honor Roll of players.

The honor roll for the first eighteen weeks is as follows: All "A" grades—Mildred Schofield, Ruth Hanson, Donald Adams; at least two "A's" and two "B's"—Hazel Davis, Virginia Goodwin, Barbara Boston; no grade below a "B"—Marion Guest, Muriel Colby, Marguerite Collins, Pauline Jamieson, Barbara Fortune, Jeffrey Power, Bettina Dalton, Barbara Galeucia, Roland Mellen, Virginia Boston, Flavia Crotty, Olive Littlefield, Shiela Tracy, Minnie Steere.

Recent graduates of Wells High School are attending the following institutions: Syracuse University, Sweet Briar College, University of Maine, Boston University, Duke University, Westbrook Junior College, Portland Junior College, Gorham Normal School, and McIntosh Business College.

Through the cooperation of all who are directly connected with the school, I feel that Wells High School has continued during the past year to hold its place among the leading secondary schools of the state.

I wish to thank the citizens of the Town of Wells, the superintending school committee, the superintendent of schools, the members of the faculty, and all who are interested in our school for their splendid cooperation and loyalty during the past year. It is my sincere hope that the year 1940-41 may be even more successful than the year 1939-40.

(Signed) A. W. COLEMAN, Principal.

MANUAL TRAINING

Superintendent John S. Carver:

The Manual Training Course started its third year this fall with an enrollment of 53 boys out of the school's 77 boys, meaning that 68 per cent are being served by the course. This is an increase of 1 per cent over last year's enrollment. The enrollment of the boys from the upper classes has remained practically as it was last year. A smaller total enrollment is due partially to the fact that the Freshman Class is smaller than usual, and partially to the introduction of a new course from which the pupils might choose subjects.

Last fall a course in Mechanical Drawing was introduced so that every boy has a working knowledge of the tools used in the making of mechanical drawings. This course, as a by-product, helps to teach the reading of drawings. Nine weeks of the fall term was devoted to Mechanical Drawing.

A new idea is being tried out in the Shop. Namely, a Girls Shop Club. This fall, various clubs were organized, among them the Girls Shop Club. The girls from the upper classes come into the shop once each week for 1 hour. Some of the work that has been done includes: leather purses, key cases, wooden belts with leather thongs, wooden album covers, plant stands, bric-a-brac shelves, and other similar small projects, all done with hand tools.

As regards to the projects which are being made by the regularly enrolled pupils, there are the required projects of the Freshman which include the fundamental hand tool processes. The projects for the upper classes are very similar to those of last year which many of the townspeople saw at the exhibition held at Graduation time. For the benefit of those who weren't able to see them, they include: radio stands, puzzle boards, a chinese-checker game, a piano bench, a maple chest, book cabinets, wall shelves, a unit for electrifying a pasture fence, a wheelbarrow and many others. We have also repaired several rural school desks which have been brought in.

Again I am most happy to be able to report that we have not had a serious accident with either the hand or the power tools, and I certainly hope that our good record in that respect may continue to be spotless.

I wish to thank every one who has had any part of the responsibility of making this course possible for the children of this town.

Respectfully submitted,

(Signed) MONROE BEAN.

COMMERCIAL DEPARTMENT

January 30, 1940

I hereby submit my report for the Commercial Department, 1939-1940. Enrollment by divisions:

	No.
Bookkeeping	67
Stenography	23
Typewriting	32
Junior Business Training	13
Making a total of	135

Being a new department I would like to give briefly a few aims and accomplishments of each division.

First: Here are the expected results of Bookkeeping which distinguish it from other courses.

(a) The student should be able to keep such accounts as are necessary in taking care of his or her own personal income and expenditures.

(b) Should be able to keep proper records for necessary transactions in running a home.

(c) Should be able to keep such books as are kept by treasurers of school associations, any church society, clubs, or any similar organization.

(d) Should be able to understand the part which bookkeeping plays in business life.

(e) Should be able to decide whether or not they should go on with the study of vocational bookkeeping.

(f) Should know as much bookkeeping as will be necessary in most junior business positions.

A careful study of these expected results of this course should convince you that it has real value for everyone. This value is immediate.

A new book has been introduced with the introducing of the shorthand. This is the Functional Method. It is proving most successful. At the time of this writing the majority of the class is writing 80 words a minute on practiced material. The aim of the course is to develop a fair degree of skill in reading and writing, and to lay a foundation, for rapid and accurate transcription on the typewriter. Those seniors taking the course for one year, will, I know be able to take a certain amount of dictation that will be of real benefit to them in seeking employment after finishing this course. Plans have been made to enter the class in a Shorthand Contest sponsored by the Gregg Writer, a shorthand magazine.

In the study of typewriting, the primary aim is the development of typing power for personal or vocational use. A few secondary aims are as follows:

(a) The development of fundamental technique for the control of the keyboard and the machine parts.

(b) The development of the habit of accuracy in typing and in proof-reading material.

(c) The development of facility in the use of effective written speech.

(d) The development of a feeling for the correct spelling and syllabication of words, and last but by no means least, the development of desirable social attitudes, business habits and tact.

The budget letters have already begun by several students. This consists of a group of letters to be typed perfect and an original cover to be made on the machine.

Speed tests will be given at least once a week and certificates will be awarded to those typing 30 words a minute, for 10 minutes with five errors or less.

The Junior Business Training class has proved to be a most interesting group as a great part of the time is given to class discussion.

Although not definitely vocational this course may be regarded as the first step in commercial education for those who choose a business career. It is equally valuable for those who still are undecided as to what should be their vocational choice, as it affords them certain elemental try out experience in handling every day business transactions.

I would like to extend my sincere appreciation to all those who made this course possible and an invitation to parents and friends to visit a class at any time.

Respectfully submitted,

(Signed) ELAINE DASAKIS.

MUSIC SUPERVISOR

Superintendent John S. Carver,

Dear Sir:

I am submitting my second annual report as Music Supervisor in the schools of Wells.

My program of work has been primarily the same as that of last year. I have continued note reading, note singing, holiday and community songs and work with rhythm bands has been carried on where circumstances permitted. Music appreciation has also been included in the program for the upper grades.

At Christmas time several of the schools presented operettas and I assisted in the preparation of these.

At the High School work with the orchestra has been continued and also a class in chorus singing for all those girls and boys who elected music.

Again I would like to express my appreciation for the help and co-operation I have received from you, Mr. Carver, the school board members, the teachers and all the parents it has been my privilege to meet.

Respectfully submitted,

MARGARET E. ELLIS.

HOME ECONOMICS

To Superintendent Carver:

I submit the following report of the Home Economics Department of Wells High School for the year of 1939-1940.

The school opened with thirty-four pupils being enrolled. Eleven were in the Freshmen class, sixteen in the Sophomore class, and seven in the combined Junior and Senior group.

The course offered this year followed in general the pattern of last year, although a few new units were included.

The Junior and Senior group were given this fall a short course in advanced food preparation and meal planning. This unit aims to further develop in the student the ability to prepare more complicated foods and to plan better well-balanced and nutritious meals.

A new unit "Consumer Education" was given after the food's course. This unit aims to help the students to become more efficient buyers.

The year's work will be completed with an advanced study of clothing construction principles and a study of interior decoration in which the pupil studies house plans and problems of home furnishings.

The Sophomore class began the year with a study of canning principles. The class canned fruits and vegetables, made jelly, and at the completion of the unit the results of their labors were put on exhibition in one of the store windows.

A course in food preparation followed this. This course centered around the luncheon meal; the child gained ideas and practice in the making of luncheon dishes. After the completion of the food's course the class prepared and served a five course meal to members of the School Board.

After the completion of the above course a unit in child care and guidance was offered. This deals with the caring of children from the infant to the school age.

The remainder of the year will be spent in studying textiles and in the making of clothing problems more advanced and more difficult than encountered in the first year of sewing.

The Freshmen course considered first beginning foods; this centered around the preparation and serving of breakfasts.

A course in "First Aid" followed. The student learned simple bandaging, and the aid that should be given in case of accidents either in the home or out of the home. Along with this course was given a unit in "Home Nursing." This latter course helps to fit the child to adequately care for minor sickness in the home. The spring term will be spent in sewing. Simple problems will be made in which the fundamental clothing principles will be first learned.

Contrary to general belief the Home Economic Course deals not only with sewing and cooking, but with many problems which the child will face in the role of a homemaker. This course endeavors to equip the child so he may

successfully meet and cope with these problems. The aim is for general all round development along this line.

During the summer many new reference books were added to the department library and minor changes were made in some of the equipment.

I wish to thank Superintendent Carver and the members of the School Board who have been so cooperative throughout the year.

Respectfully submitted,

EVELYN WHITELEY.

REPORT OF THE
Public Health Nurse

To the Selectmen and School Committee of the Town of Wells:

The following report covers the activities of the Public Health Nurse from February 7, 1939 to February 7, 1940.

A total of 271 patients, other than those given as a part of the school service have had service.

Infants under 1 year	42
Pre-school children	30
School children	57
Pre-natal patients	8
Post-partum patients	9
Crippled children	5
Mental	1
Adults	86
Family Welfare	33

The type of service rendered has been as follows:

Bedside visits to give nursing care	441
Instructive visits to patients	356
Family welfare visits	142
Visits to crippled children	27
Total number of visits	966

The school children have had their annual inspections, and figures show not only many corrections but many more needing corrections. Each year new pupils entering are found to have defects, although many pre-school children had their defects corrected before entering school this year. There are a few children in high school with defects that they have had all through their school years.

Underweights	33	Dental corrections	65

HIGH SCHOOL

Defective tonsils	20	Corrections	2
-------------------	----	-------------	---

Five Dental clinics were held, and 31 children were treated. This included fillings, extractions and cleaning as well as instruction in the care of the teeth.

The town has been unusually free from contagious disease this year, the number of cases reported were:

Whooping Cough	10
Chicken Pox	4
German Measles	1
Pediculosis	14
Impetigo	6

Diphtheria Toxoid has been given to 2 Adults, 3 Pre-school and 5 school children; while 20 children received the immunization dose for protection against whooping cough.

A mid-morning milk lunch was provided for 22 children from March to June. This year a hot noon lunch is being served at High School, and since this is also available for those children housed at the High School since the destruction of their building by fire, provision has been made for free lunches for 15 children.

The Well Baby Conferences, scheduled for the second Thursday afternoon of each month are being well attended. Conferences will be held in the Selectmen's office at Wells Town Hall from 2 to 4 P. M. until other suitable place is announced.

Early diagnosis and prevention of tuberculosis is one of

the chief objects of our Spring program. The Tuberculin test will be given to any High School or Grammar School children who are willing to take it. Adults recommended by their physicians, or who have been contacts of Tuberculin patients will be offered the same opportunity for diagnosis and prevention as the school children. The tests are followed by chest X-rays for all those that react to the test, and a check up by a specialist. Arrangements are being made for the State Nutritionist to be ready to discuss recommendations as made by the specialist with the family of the children.

Respectfully submitted.

REPORT OF THE Superintendent of Schools

Wells, Maine, February 1, 1941

To the Superintending School Committee of Wells, Maine:

I herewith submit to you my report of the Schools of Wells.

The School Census of April 1, 1940, showed there were 472 boys and 427 girls, a total of 899 persons between the ages of five and twenty-one years in the town on that date. There were 571 enrolled in the schools at the opening of the fall term as the following table shows:

The number of new teachers this year is small. Miss Leona DeCourcy was transferred to the third room at Division 2, which we have opened this year. The vacancy at Division 3 was filled by transferring Miss Evelyn Lord from Division 6, while Miss Bertha Bourne was hired as teacher for Division 6. Miss Mary Dustin was assigned to Division 16, left vacant by Miss Harmon's resignation.

The use of another room at Division 2 has been an improvement in the overcrowded condition which has prevailed there for several years. There remains a fourth room in the new building which has been unoccupied this year. If the town votes to close the schools at Division 1 and Division 4, we can reduce the number of teachers by one or offset the increase in number this year. I think the change offers more sanitary, healthful conditions for school work than those under which school was maintained in the small rural schools.

The pupils and teachers have enjoyed the new building at Division 2 and the change has been appreciated. The installation of an oil heater makes it possible to warm all the rooms in the building to a proper temperature for health. The janitor work is costing us no more than last year at the high school and we are expecting that the cost of oil will not exceed the cost of coal for the high school building alone last year. In addition, it is found much easier to heat the auditorium than when we used hand firing with coal.

In addition to the usual repairs, the interior wood work at the high school and the outside finish were repainted. The building, as you know, is large and the cost of the

work was considerable. The seats which were reclaimed for use after the fire were sanded and varnished as well as all the desk tops in use in the high school.

This year, for the second time, the elementary teachers have attended a series of eight demonstration lectures on the teaching of English. Nine teachers from Biddeford and one from North Kennebunkport joined the class which was originally composed of teachers from Union No. 2. All but two of the elementary teachers attended these demonstration lectures, which indicates a desire for self-improvement.

I regret that we have not been able this year to avoid overdrafts. It is a matter of pride with the committee to keep within its appropriations if possible. There are balances in the main school accounts, but Repairs and Insurance carry overdrafts. The repair bills at the high school were larger than we had foreseen in March. The insurance account could not be estimated at all closely since town regarding new structures. The appropriation in March the value of the building depended on the decision of the 1940 was based on insurance coming due on the old set-up.

May I express my thanks to the teachers, to the members of the school committee and to all citizens who have helped in carrying on the important work of educating our children.

Respectfully submitted,

JOHN S. CARVER.

REPORT OF THE PRINCIPAL, WELLS HIGH SCHOOL

Supt. John S. Carver:

The school year opened with an enrollment of one hundred and forty seven pupils of which seventy two were boys and seventy five girls. They were divided into classes as follows: Post Graduates, 4; Seniors, 29; Juniors, 31; Sophomores, 33; Freshmen, 50.

There were no changes in the high school faculty this year. The faculty and subject field of each is as follows: Mr. Coleman, Social Studies; Mr. Roland Littlefield, English; Miss Ethel Weymouth, Mathematics and Science; Miss Beulah Hamilton, Languages; Mr. Monroe Bean, Manual Arts; Miss Evelyn Whiteley, Domestic Arts; Miss Elaine Dasakis, Commercial Subjects.

The courses offered are College Classical, College Scientific, Manual Arts, Domestic Arts, Commercial and General. The pupils are guided in the selection of these courses on the bases of ability, interest, and future plans.

Several of the members of the class of 1941 have already selected the institutions which they plan to attend next year. Enrollments have been made at college, normal school, business college and schools of nursing. Other members of the class plan to enroll before the close of school.

A school band is being organized this year for the first time. This group is under the direction of Mr. Everett Firth of Sanford who is giving instructions on the majority of the instruments. He is being assisted by Mr. Ramsdell on the drums, and Mr. Cella on the clarinet. Over forty pupils in the high school and the grammar schools at Wells and Ovunquit have been taking lessons for several months. A public concert is being planned for early spring. A Band Booster's Club has been organized to sponsor this worthy project.

The usual activities are being carried on this year. The athletic program consists of football, basketball, and baseball for the boys, and basketball and track for the girls. In addition to the band, the glee club and orchestra under the direction of Miss Perkins furnish opportunity for those who are interested in music. The Senior class presented a very successful play, and expects to publish a year-book before the close of school.

I wish to publicly express my thanks to Mr. Freeman whose work as janitor receives frequent praise from visitors; to Mrs. Rousseau who runs an excellent cafeteria; and to the three bus drivers for their whole hearted cooperation in making the school program a success.

I wish to thank the citizens of Wells, the sperintending school committee, the superintendant of schools, the teachers and the pupils for their continued cooperation in making 1940-41 a highly successful and enjoyable year.

Respectfully yours,

Aura W. Coleman, Principal.

REPORT ON MANUAL TRAINING

Superintendent John S. Carver:

The Manual Training Course began it's fourth year this fall with a much higher percentage of the boys in school enrolled than in any previous year. There were 53 boys enrolled out of the school's 72 boys, thereby making a percentage of nearly 82% which is an increase of about 14% over last year's enrollment.

The Mechanical Drawing part of the course was continued and the boys who had taken the last year's basic course went into the work of Orthographic projection. Six weeks of the fall term was spent on Mechanical Drawing. The boys who had Drawing last year have made drawings of the projects which they are making in woodwork.

The projects in woodwork this year include some of the same type of projects which have been made in previous years and in addition the following: hand carved initial book ends, several pair of skis, a shaving cabinet, machinist tool chest, wall gun rack, baseball bat, night stand, a Queen Anne coffee table, inlaid checkerboard, piano benches, fancy glued-up bowls (turned), and numerous other small items. The first year students, as in the past, work entirely with hand tools while the second, third and fourth year students are privileged to use the power tools while the instructor is in the shop.

As in the past few years, we will have an exhibition of some of the projects at graduation time and hope that it will be possible for everyone to see what the boys are doing.

We are adding to our equipment this year some stools, which some of the boys are making, to be used in connection with the Mechanical Drawing.

I am still pleased to be able to say that to date we've not had any serious accident with either the power or

hand tools. Of course, as everyone knows, it is nearly impossible to work with tools for any length of time without getting a few nicks here and there. We're no exception. We have had a few now and then but as yet none of them have been very serious.

I wish at this time to express my sincere thanks for the splendid cooperation that I have had from everyone since I came to the town of Wells.

Respectively submitted,

MONROE BEAN.

REPORT OF MUSIC SUPERVISOR

Supt. John S. Carver,
Kennebunk, Maine.

Dear Sir:

It is a privilege to submit my first annual report as Supervisor of Music in Wells.

It is my aim to inspire each child to be a lover of good music and to find enjoyment in it through self expression, thus enriching life. I am trying to emphasize the beautiful tone quality, to increase the music reading ability, and to make every lesson one in music appreciation.

In addition to the regular work done in the upper grades, a study of world famous composers and musicians has made up a part of the work, and tests in theory are given occasionally.

In the primary grades songs in keeping with the season and special holidays have been presented. I have also endeavored to correlate the songs with their studies. In some school's work is being done with rhythm bands.

In the High School a Girls' Glee Club has been organized. This group is preparing to appear before the public in the near future.

It has been said that "music exalts life."

At this time I wish to express my appreciation for the cooperation and aid I have received from anyone with whom I have come in contact.

Respectfully submitted,

RUTH E. PERKINS,
Supervisor of Music.

COMMERCIAL DEPARTMENT

Superintendent John S. Carver:

I hereby submit my report for the Commercial Department 1940-1941. Enrollment, 103.

The second year finds the enrollment a little smaller than last year, due to the fact that each subject is offered only to certain grades. For instance, last year the course being a new one, any Sophomore, Junior or Senior wishing to take Bookkeeping was permitted to do so; but this year Bookkeeping is offered only to Sophomores and Post Graduates, the same rule applying to the other Commercial Subjects.

I find this year that the students are very much interested in working for awards. These awards are in the form of certificates given by two New York Companies.

The Bookkeeping group is working very earnestly toward the large engraved Proficiency Certificate that is to be given at the end of the year to any student obtaining a "B" average, and I feel safe in saying that the majority of the class will receive one of these.

The advanced shorthand group is doing very good work. Fast dictation is stressed in this class. The various kinds of filing is also being taken up. I believe that filing is as important as Shorthand and Typewriting, and every boy and girl should have a thorough knowledge of this subject before applying for an office position.

Doris Dixon and Barbara Boston two very efficient shorthand students have received their 80 certificates. This is taking shorthand notes at 80 words a minute for 5 minutes and transcribing them back on the machine, neat and accurate. They are working toward the goal of 120 words a minute and the Gold Pin.

Both classes in shorthand are entering the Nationwide Contest sponsored by the Gregg Writer.

I have at this time 35 typing certificates ready to be given to the students who have taken the 10 minute Speed Tests making not more than 8 errors. Credit Certificates will be presented to all those passing in Typewriting for the year.

I have found that awards is what the student needs, something to work for, to have at the completion of a course, something to show for the work accomplished during the year.

The Budget Letter Writing is now in progress. The letters must be perfect and an original cover to be made on the typewriter. Some very neat designs were made last year and I am in hopes of getting many more this year.

The classes are planning to hold an exhibition of their work at the end of the school year. By doing this the parents and friends will see the work of the Commercial students.

Economics and Commercial Law have started again this year. A half year being devoted to each subject. There are 37 taking this course. Understanding of Economic problems is most desirable to a future citizen of a progressive community. And every person should also possess a certain amount of information which would help him to deal fairly with individuals and business organizations. This is explained thoroughly in our Economics and Commercial Law texts. It also gives the student the legal information he needs in conducting his daily affairs in an efficient manner.

I wish to thank Mr. Carver, the School Committee and all those who made this department possible.

Respectfully submitted,

(Signed) ELAINE DASAKIS.

REPORT ON HOME ECONOMICS

To the Superintendent of Wells High School:

The fall term opened with a larger number of pupils enrolled in the home economic course than in the preceding year.

Twenty-three signed for their Freshman year in home economics, nine for the Sophomore year, and thirteen for the combination Junior-Senior course. This made a total of forty-five students.

The Freshman course this year consisted of twelve weeks of meal planning and food preparation. In this course the student planned meals and prepared breakfast foods in the laboratory.

The next six weeks were spent in studying home nursing. This course trains the girl to adequately take care of minor sickness in her home under the doctor's supervision. She learns the principles of bed making, preparing and serving diets for the sick, taking temperatures, and other techniques which are of vital importance to the physical and mental welfare of a sick person.

A course of three weeks duration was given in First Aid. This course seemed particularly vital, as it trains the child to cope with emergency measures and may be a means of saving a person's life.

The last of the year will be spent in clothing work. The student will learn the fundamental stitches including mending and darning. At the completion of this course she should be able to make simple garments for herself without much assistance.

The Sophomore year consists of more advanced food preparation, child care, and advanced sewing. The student, the first twelve weeks, learns the principles of canning and jelly making. She then prepares foods centering around the luncheon or supper meal.

The course in child care enables the student to learn the principles of child guidance, so she will be better fitted to care for the infant and pre-school child. Both the physical and mental development of the child is discussed and studied.

The last of the year is again spent in the construction of garments. The student works with more complicated patterns and makes such articles as pajamas, dresses and skirts. Her skill in both machine and hand sewing is improved.

The combination Junior-Senior group spent the first part of the year on the study of family life and the problems the modern family must face and solve. This course attempts to help the student analyze and draw conclusions as to the benefits received from stable and harmonious family relationships.

After this course a unit in interior decoration was presented. The student drew house plans, selected and arranged furniture according to principles set up in the course. Everything was covered from the selecting of rugs, to the selection of picture and other accessories. Curtains were made in this course for the windows of the department.

The last of the year will be spent in planning meals from the nutritious standpoint. A course in both social and table etiquette will be offered.

During the summer months many new books were bought for the department. A refrigerator was also installed, besides other smaller pieces of equipment. This added much to the efficiency of the department.

Much of the year's work in all classes will be on display during graduation; all are cordially invited to inspect it.

In closing, I wish to thank all who have cooperated with me in making this department so successful in the school.

Respectfully submitted,

EVELYN WHITELEY,

Home Economics Teacher.

REPORT OF THE Public Health Nurse

To the Selectmen and School Committee of the Town of Wells.

The following report covers the activities of the Public Health Nurse for the year 1940.

A total of 253 patients, other than those given as a part of the School Health Service, have had service, as:

Infants under 1 year	46
Pre school children	36
School children	64
Prenatal	9
Post-partum	12
Crippled children	5
Adults	95
Family welfare	28
	267

The type of service rendered has been as follows:

Bedside nursing care	339
Instructive	339
Visits to crippled children	20
(includes transportation to clinics)	
Miscellaneous visits	672
Total number of visits	1,370

The annual school inspections show that there have been 110 new pupils enrolled in our schools since September 1st; including the sub-primary grades, making a total of 576 children inspected, although not all attending at one time.

COMMUNICABLE DISEASE CONTROL

The Town has been practically free from Communicable diseases having had only the following reported:

Measles	31
Whooping Cough	None
Mumps	4
Chicken Pox	22
Pediculosis	11
Impetigo	15
Tuberculin tests were given to	102
Chest X-rays to	40

These X-rays were paid for by the Maine Public Health Association from money received from the sale of Christmas Seals in our **community**.

Well Baby Conferences have been held on the second Thursdays of the month from two to four P. M., at which time children under school age have been weighed, meas-

ured and inspected. Advice given and formula changes made for the infants. At the October Conference, Dr. Thomas Foster, Specialist in Pediatrics came from Portland to advise in Infant care. Twenty six children were examined by Dr Foster. This clinic will be repeated if sufficient interest is shown.

Plans were made for a Tonsil Clinic to be held at the High School last June, all arrangements made, the children had had their Blood Clotting time taken, uranalysis attended to, sterile goods made ready, and beds ready to be set up in Cafeteria when it was found best to indefinitely postpone the clinic because of unforeseen difficulties due to construction of the new building.

Hot lunches were provided for a group of children at the Cafeteria in High School in place of the milk lunch at recess, this in no way took the place of the luncheon from home, but was additional food for children unable to otherwise have a hot luncheon.

There was no Toxoid Clinic held this past year, but plans are under way for one in the near future. Many parents have asked for this protection and it should be one of the biggest clinics we have had. Any child over eight months of age may have this protection from Diphtheria by contacting their family physician or the nurse.

Arrangements have been made with the assistance of the Parent Teachers Association for several Vision Clinics to be held with Dr. William Corbett of Kennebunk. This way we hope to eliminate hours of time spent in travel also to make it possible for parents to take their children for corrections at their convenience without having to wait for some other person to take them.

Much time has been spent on Welfare work and getting corrections which will mean better physical condition and less lost time from illness as time goes on. This seems to be the least undertood phase of our program.

I wish at this time to express my appreciation for all of the friendly assistance and support that has been given me by the School Committee, the Selectmen, the members of the Wells Health Association, the physicians, and all of the towns people who have so freely given of their time and assistance when ever it has been asked.

The new office with its equipment in the new school building is very much needed and appreciated, and I feel sure will do much toward making our Nursing Service be a real service available to all.

Respectfully submitted,

GRACE MESERVE, R. N.

Auditor's Report

February 26, 1941

To the Inhabitants of the Town of Wells:

This is to certify that we have audited the accounts of your Town Officials for the year ending February 12, 1941.

The financial standing of the town as shown by the comparative balance sheet was correct as of that date to the best of our knowledge and belief.

The following exhibits and schedules were prepared from your Town records.

- 9 Notes Payable
- 10 Bonds Payable
- 11 Coupons Payable
- 12 Analysis of Change in Debt

Respectfully submitted,

E. T. SULLIVAN,
Public Accountant and Auditor

CASH

All cash receipts as reported have been accounted for. We have found that the treasurer has not reconciled his checking account monthly nor has the bank balance been reconciled with the cash book balance monthly. These balances must be reconciled at the end of each month. In one instance a bond and two coupons were paid and have not as yet been returned to the treasurer. No bonds, coupons, or notes should be paid unless the person holding them presents them for payment.

TAXES

The tax commitment has been verified and all outstanding taxes have been reconciled.

ROAD ACCOUNTS

We have found several errors in the state road accounts. Tar had been applied to both state aid and third-class roads and no payrolls submitted to the supervisor. Some construction was done on a state aid road and charged to a W. P. A. town project. These are reimbursable items by the state but, of course, cannot be paid unless payrolls are submitted to the supervisor and verified by him. We recommend that in the future the road commissioner consult the state supervisor if there is any doubt as to whether work is being done on a town or a state road.

OVERDRAFTS

We call your attention to the net overdraft of \$11,330.56, \$9,978.78 of which is from the poor and veteran's accounts. We believe that every effort should be made to reduce the cost of poor, but if it is impossible to operate this department with the present appropriation this fact should be called to the attention of the budget committee. We do not believe it sound financial policy to have a large overdraft in this account each year.

TEMPORARY LOANS

Temporary loans amounting to \$10,000 have not been paid for the current year. This is due to the net overdraft mentioned above.

PRESERVE THIS REPORT

A sufficient number of these reports have been printed to furnish every interested citizen with a copy. An effort has been made to get a copy into the hands of every voter in advance. It should be borne in mind that if copies are left at home there may not be a sufficient number at the hall to go around on Town Meeting day.
